Digital Literacy Project Report

Name: Kuldeep

Branch: B.Tech

Year: First Year

Course Code: CSE0001

Date: March 2026

Introduction

This project was completed as part of the Digital Literacy course. The aim of the project is to develop awareness about digital tools, online safety, and professional communication. As a Digital Ambassador, I performed various tasks to help students understand digital literacy.

Task 1: Digital Literacy Infographic

I created an infographic using Canva covering digital literacy, safe internet practices, and useful tools. It helped me understand how to present information visually.

Task 2: Digital Portfolio

I created profiles on GitHub and LinkedIn. These platforms help in building a professional online presence and will be useful for future internships and projects.

Task 3: Platforms

I created a Google Form quiz and explored a coding platform like HackerRank. This improved my technical and analytical skills.

Task 4: Email Etiquette

I learned how to write professional emails and created a checklist for social media usage. This task improved my communication skills.

Task 5: Cybercrime Awareness

I studied UPI fraud and created a prevention checklist. This helped me understand online safety.

Conclusion

This project improved my understanding of digital literacy and its importance in daily life.
